

We Grow in God's Love

Genesis 1:26-30

Name _____

God made all the people and blessed each and every one. God created people out of the earth and called them children of God. We are all special to God no matter what we look like, where we are, or what we do.

God made families to love and care for one another. Write the names of your family members on each apple. Then color the apples and tree. Add more apples if needed.
