

Saving the Trees

Name _____

Many trees are used to make newspapers and other paper products, so we need to **conserve** (use as little as possible) and **recycle** (use things more than once).

Did you know that if everyone in the United States recycled Sunday newspapers it could save more than 500,000 trees every week?

Trees are used to build homes, and land is cleared of all the plants to make room for homes and businesses. Not only are trees and plants necessary for food and as homes for animals, but green plants make oxygen, which people and animals need to breathe.

Solve the following word puzzle using the letter code to find out what you can do to save the forests.

1 = A	5 = E	9 = O	13 = T
2 = B	6 = G	10 = P	14 = U
3 = C	7 = L	11 = R	15 = W
4 = D	8 = N	12 = S	16 = Y
